

A brief INTERLOPERS inter-newsletter circular to find out members' views on a certain constitutional matter that has recently arisen. — It has been proposed that we change our status from that of a closed club to that of an open one but one which would still be Edinburgh based & retain its association with the university.

— PROPOSER — R.D.B. SLOAN.

— SECONDER — H.B. AUBER.

No. 6.

There are several arguments in favour of the change:—

- 1) Increased Membership!!
- 2) As a result of 1) we could field full male & female teams more frequently — this means members would be competing more often as part of a team rather than individuals. (Good for club spirit)
- 3) We could introduce friends to the sport without sending them to another club — benefiting them, us & the sport as a whole as they would be more likely to carry on if in familiar company
- 4) Improved performance on our part? — training would be easier if there were others to train with.
- 5) Prospective members are queuing up to join before things like the S.K.

Think about it!! — replies as soon as possible → next Monday — the 11th? so that we can let others know as soon as possible.

And when you reply — let me know if you're going to the S.K. — and/or the Scottish relay which is now on April 20th and not March 10 as advertised.

H.B.
